Introduction

Welcome to this year's Society End of Year report.

The Societies have enjoyed an exceptionally busy year with a record number of students joining on the two societies' days. With the ongoing website developments the Societies have been empowered to better manage themselves, while from an administrative perspective, the developments have allowed for greater insight into their activities and a deeper quantifiable understanding of the vital role they play in University life.

I was elected chairperson of the Board of Irish College Societies in June 2006. One of the challenges facing Society Administrators is the lack of quantifiable data on Society activities. There is no doubt that Societies contribute to the holistic education of students and enhance the social and cultural life of any campus. The advances we have made in the area of statistical data collection are second to none in the third level sector. I had the privilege of presenting papers at two conferences this year on the role of societies in third level, firstly at the Student Services conference in Athlone and also at a conference on the 'First Year experience' in Gothenburg, Sweden. NUI Galway also played host to the BICS National Awards in April, the event was huge success with a record number of colleges attending. When NUI Galway won three awards including winning Best Society in a large College for the second year in a row for our film Society, it was more than the icing on the cake.

In this report, in tandem with the statistics, is also a detailed report on each societies' activities, in their own words. The events lists are generated from the on-line calendar so what you are reading is the societies description of their event in advance of it occurring and the good news is that all indications are that societies had record attendances at their events this year. At the start of each report the societies also have an opportunity to reflect on their year and highlight their achievement.

This year had many firsts, which made it a very busy but exciting year. We had a full training day on a Saturday in September, which proved very successful with 225 committee members attending. The new on-line systems including on-line room bookings, the ALIVE portfolio builder, the members' management system, on-line award nominations and an integrated texting system have all worked successfully and have been embraced by the societies. This web development is on going and many new systems are currently being developed with the aim of helping the Societies to manage their day to day business while making them more accessible to the student body and also transparent and accountable. With a turnover of almost one million euro the society are big business to the University and their importance must not be underestimated. What is perhaps most satisfying about the year is that the many 'firsts' were not only enjoyed by Society Administration but also by the Societies themselves with the committees pushing boundaries, trying new events and teaming up together for some truly remarkable occasions.

This year saw the Múscailt team up with Fleadh Imboilg, spear-headed by the History Society, for a festival which celebrated the coming of spring. This added a new popular element to the week and a fundraising element which saw €12,000 raised for charity and the turnover for the festival was doubled from the previous year to €107,000. The Foundation continued to be major supporter of the festival. Many additional societies, some unexpected, were involved in the week which transformed the campus.

This year great advances were made in pursuing the societies' strategic plan:

Strategic Thrust 1 Facilities and Support Strategy.

In addition to the IT development outlined above the SocsBox increased its services, and the sponsorship from the AIB also continued his year. Additional vital equipment was purchased for the societies and the new levy allowed for an increase in Society funding from the University, which has them now more in line with funding levels in other third level colleges.

Strategic Thrust 2 Training

Each individual Societies control panel allows them a wide range of support options, and a new support material became available in the download section on the website. In addition to the day long training

workshops were available through the year and one to one training was available both from me and the staff in the SocsBox.

Strategic Thrust 3 Perception and Recognition

This year we achieved our target, which was to insure that any student who wanted to know about societies and their events and how to get involved would have numerous opportunities to do so. There was also a concerted effort to attract those students who were not aware that they were looking for Societies both at a collective and administrative level and from the individual societies themselves.

Strategic Thrust 4 Communication Strategy

The new systems both in place and under development have opened up numerous avenues of communication both for society administration to the society committee members and from the Societies to their members and the wider public. As part of a wider strategy I was also responsible for the development of the BICS website which has opened up communication between the member colleges. Strong links have also been forged with numerous departments and campus groups, some example are the Jerome Hynes Memorial award for the Múscailt one-act-play which has strengthened links with the Alimni Office and the Careers Service have engaged with the societies during training.

Strategic Thrust 5 Accommodation

This final strategy is the most challenging and currently, while we await developments on the plans for the proposed new Culture Centre, the artistic and performance societies in particular are struggling with very inadequate facilities. While the Buildings Office has been supportive this year the university just does not have the facilities. The extraordinary thing is despite this and against all the odds the artistic Societies are flourishing, which is probably an indication of the indomitability of the human spirit.

Both our Film and Juggling Societies won best society in the last two years at national level. The dance society produced a professional Irish dance troupe in addition to running numerous classes in a wide variety of styles. The Drama Society has spawned numerous award winning theatre companies as well as producing many fine plays. The Art, Musical and Orchestra Societies have gone from strength to strength all broadening their level and variety of activities. The new Choral Society Conductor won Best Fresher at the BICS awards and the society is back on its feet after saying goodbye to their talented former conductor, Peter Mannion, who had brought the society to a very high standard at competition level. The list goes on with societies whose primary aim might not be artistic but have been inspired to try new things and explore new avenues of expression.

This should not allow for complacency, the 'anything will do' mentality. The university must not underestimate the importance of these opportunities for its students and their holistic development. It is important that the people who make decisions on future developments are aware of what a treasure they have in the societies as ambassadors for the university as positive contributors to retention and a major attraction for potential students. This must be reflected in future developments and meaningful dialog must be engaged in to insure this golden opportunity to foster and develop our students is not squandered.

Finally enjoy the report, share in the societies triumphs, highs and achievements, this report is a testament to the students of vision, dedication and imagination who brighten our campus with their enthusiasm and commitment, thanks to all of you.

But remember this is only a report, to truly understand what societies are all about make sure to get out there, attend their events and get involved.

NUI Galway Best in the country at BICS Awards '07

NUI Galway Hosted the National Board Of Irish College Awards on April 18th. At the Awards NUI Galway Societies again scooped the top award at the National Awards winning Best Society in a large college for the second year in a row. Last year the Juggling Society won the title and this year the title of **Best Society in a large college went to the Film Society** who wowed the judges with the scale of their activities including establishing the student cinema on campus which shows films three nights a week. Jack Stenson, the auditor, had received the title of Best Society Individual at the NUI Galway awards.

There were two other NUI Galway winners on the night, **Thomas Cryan won Best Fresher** and the **Voluntary Services Abroad Society won Best Website**. Thomas, despite being a first year, impressed the adjudicators with the dedication and enthusiasm he has brought to his new role of conductor of the NUI Galway Choral Society. Thomas, a medical student, has put his considerable musical talent to excellent use with the choir and will be singing with the NUI Galway chamber choir section at the Scratch Music Challenge in the Royal Albert Hall, London in May.

The VSA won the best website for www.vsa.nuigalway.ie designed by NUI Galway medical student Shahzad Javid. VSA recently celebrated their thirtieth anniversary and each year fundraise almost €150,000, which enables medical students to bring medical supplies to developing countries and to assist in healthcare delivery to some of the most deprived people in the world.

The BICS National Awards hosted by NUI Galway on April 18th celebrated the achievements of the top societies from fourteen colleges throughout the island of Ireland. In her welcoming speech NUI Galway Vice President Mary O'Riordan warmly welcomed the 250 guests to the entertainment filled evening. Attending the awards and competing in the large college categories were representatives from DCU, DIT, Trinity College Dublin, UCC, University of Limerick, Queens University Belfast and NUI Galway. The competitors in the small college categories were NUI Maynooth, Cork IT, Mary Immaculate College Limerick, ITT Dublin, IT Tralee, Dundalk IT and NCI.

The Mayor of Galway Niall O'Brollocháin in his keynote speech welcomed the colleges to Galway and praised the contribution which societies make to their communities and how significantly they contribute to the educational experience of all who participate in their diverse activities. They are an integral part of campus life and the Mayor stated how much he enjoys attending society events because of the wonderful energy involved. Entertainment on the evening was provided by the dance society, fire juggling from Juggling Society, the Orchestra Society string quartet and a céilí from Trad Society and the band for the evening was Lewd Tunes.

The Board of Irish College Societies is a national organisation, constituted in 1995, which is dedicated to providing a national forum for the societies in Ireland's Universities, Colleges and Institutes of Education and is responsible for the promotion of interest in the activities of Irish college societies and of contact and co-operation between them. With fourteen colleges involved this year, and many new institutions on board, the night was a fitting end to a successful year for BICS. Society Statistics from our database from Societies Day 1

This year we launched a new student data base which is under development and refinement and the fully integrated version will be launched in September 2007. This year the societies from their signup sheets on societies day submitted excel spreadsheets which were inputted to our data base, see below some of the statistics which were generated. While the system was a major improvement on previous methods we had difficulties due to incorrect information being typed and these had to be corrected manually. In 2007-2008 we will be introducing a new system which will avoid these inaccuracies and will also achieve 100% return of data from Societies Day one and two.

Societies ALIVE

This year we introduced an on-line system for society members to gain their ALIVE Volunteering certificates in association with the Community Knowledge Initiative. This development dovetailed into the societies' online management system and became another online support facility available to the members through the society website.

The societies' website can now provide useful statistical data but as the ALIVE portfolio builder was just launched at the end of January 2007 not all the societies had the time to participate. Quite a number of our very busy societies and executive committee members were unable to participate this year. Despite this the numbers of society members participating in ALIVE are up from 79 last year, which is an increase of 26%. Next year societies will be able to use the system from September to track their hours and they can also keep a blog of their experiences, which they can then choose to share with their committee or keep as their own private musings. The societies set their own criterion for involvement by their members in the ALIVE programme and approve their applications. The individual members build on their portfolio throughout the year and answer six questions and upload a photo before submitting their individual portfolios to the society (see the back of the book for quotations from the members). The society then completes the portfolio before submitting it to the Societies Office. All societies who have achieved the requirement standards are approved and forwarded to the ALIVE office.

ALIVE offers an opportunity for the hard working members of the societies to gain official recognition by the University for their contribution as volunteers. This year 109 certificates of recognition are being presented to students for volunteering with university societies. These 109 represent 22% of the total number of registered society committee member and are a good representative sample. This representative sample volunteered a total of 13,777. If we extrapolate from this representative sample the total hours volunteered by committee members equals the equivalent of 39 public service workers (see table 1). The societies had a turnover in excess of €560,000 last year approximately €450,000 of that was raised by the societies themselves and €184,274 was given to charity. Therefore societies are the equivalent of 39 full time workers providing social, cultural and educational support to the university community with a budget of €140,000.

Therefore to put into perspective the contribution societies make in hours worked and funding is the equivalent of 39 full time workers providing social, cultural and educational support to the university community with a budget of €140,000. Another way to look at the magnitude of this contribution is to realize that it would cost an organization €100,000,000 to provide such a service. However what is particularly positive about this is that it is a win win situation as the students who volunteer also reap the benefits of enhanced life skills and a more holistic educational experience as well as gaining an understanding of the volunteering concept, that contributing to your community in a positive way is a reward in itself.

Societies End of Year reports

What follows are the societies own reports which are generated in their control panel. The on-line system automatically collects their events from the societies' on-line calendar, this is why all the events are all in the future tense.

These are the societies own words and they capture the excitement, pride and joy which the hard working members take in their achievements. Also included are the students who participated in the ALIVE programme this year and the societies' balance sheets which are generated on the Societies finance website.

Animal Rights Society

The Animal Rights Society has been represented in previous years but has not been active for some time. We started the year with a new committee who, although inexperienced, had found their feet by the second semester and organised some great events.

Our aim is to highlight issues of animal abuse, to create awareness and to educate the student population as to ways in which they can adopt a more compassionate lifestyle. We promote vegetarianism, alternatives to blood sports, fur, leather and so much more.

In addition to that we also aim to fundraise in order to contribute to and support existing animal rescue organisations such as the GSPCA.

Presented by former ALF activist, hunt-saboteur and UK government target, Keith Mann, this film is a must-see for anyone interested in issues of animal rights, freedom of speech, corporate greed or government and media lies! Art Society

This year in Art Soc we have maintained our aims of keeping as many people interested in our classes as possible by having an art setting that can be enjoyed by both experienced artists and novices.

We held two classes like last year, one regular and another more relaxed comic book class where people get the chance to draw whatever they want. This is the second year of comic book classes and has resulted in the publication of the second edition of its yearly comic book "Lunatic Fringe".

Our regular classes culminated in our end of year exhibition "Rhapsodomancy" which was very successful and received good advertisement for the society by being held in Aras na Mac Leinn, a public setting and a central location within the college.

A new event in the society was having a trip to another country. We choose Barcelona due to the variety of famous artists from the region. Not only did it help students to learn about art but it brought the members a lot closer together and generally got everyone more involved in the society. In future years we would very much like to continue this.

With the success of our exhibition and comic book as well as having our first foreign trip we feel the society has achieved much in the year and can only keep growing.

Art Soc Events

This year the society had a total of 26 events that took place. These events can be divided into two categories: regular and special events.

➤ Regular Events

This year we held 3 events that ran regularly over a number of weeks. These events were as follows:

- **ArtSoc Class** ran for 7 weeks in The Art Gallery, the Quad, beginning on Tuesday, 26/9/2006. Classes range from still life, to life drawing, to clay and comic book style. 2 euro fee, pay at SocsBox on Tuesdays. Limited numbers.
- **Wednesday Class** ran for 4 weeks in AM104, beginning on Wednesday, 17/1/2007. Class to work on exhibition/comic book and own personal practice. All welcome. €1 at the door for use of all supplies.
- **Life drawing classes** ran for 2 weeks in the quad, room 003, beginning on Tuesday, 27/2/2007. Male life drawing classes, tickets cost €3.50 in the SocsBox on Tuesdays. All materials covered. Please arrive early as doors will be locked at 7pm on the dot out of respect for our model.

➤ Special Events

This year we held 13 special events. These events were as follows:

- **ArtSoc presents Hit man** » The Hub on Tuesday, 19/9/2006. Your mission this freshers week is to hunt down and "hit"* your target using only the name and photo provided. If you are the hit man with the most hits by the end of this week, you will be given a cash prize. There will also be a prize for most original killing method. The tutorial is aimed at the complete beginner, and if you've never even opened Photoshop before, then this will get you off to a good start. The tutorial will cover the uses of some of the more important tools, and some other aspects vital to creating professional looking images such as Layers, Filters and Colour Management. Unfortunately though, due to a lot of interest in this tutorial, a place will have to be booked in advance as we only have a limited amount of computers. Tickets will still be €1, and a ticket can be bought at the SocsBox. All materials, images etc will be supplied on the night.
- **ArtSoc exhibition/comic book deadline** » the Quad, room 003 on Tuesday, 30/1/2007.

Baha'i

The Baha'i Society holds talks, workshops and events inspired by the teachings of the Baha'i Faith. This year the Baha'i Society had a relatively quiet year although membership was higher this year with nearly 100 people showing interest at Societies Day in September. During the year we collaborated with the SU and other societies including Suas society, to take part in the university's first Unity in Diversity week during which a photo exhibition was erected in Aras na MacLéinn for the duration of the week and which culminated in a "DinCert" international dinner and concert! A bowling night was also held. We held meetings which consisted of informal discussion groups covering a range of topics including the Equality of men and women as well as a discussion on whether science and religion can go hand in hand. Although the groups were quite small, interesting and animated discussion arose. We hope to revisit some of these topics this year perhaps on a larger scale in more formal meetings as well as participating in inter-society and inter-varsity events. This year, the society was contacted by the Baha'i cultural society in UCC who expressed interest in collaborating in an inter-varsity event this year.

Baha'i Events

This year the society held a total of 5 events.

- **EGM** » Smokies on Thursday, 21st of September.

EGM- The first meeting of the Baha'i Society for the year hopes to see its committee elected. We also hope that members will have some input into saying what sort of events they would like to see over the coming year.

- **UniTEA** » Aras Na MacLéinn Foyer on Monday, 6th of November.

UniTEA is a tea and coffee morning from 11 a.m.- 1p.m to mark the launch of "Building Unity through Diversity Week" during which there will be a week long photo exhibition in Aras na MacLéinn. The photos will be accompanied by Baha'i quotes on unity and interculturalism. Please come along to show your support for this very worthy cause.

- **1000 families photo exhibit** » Aras na MacLéinn Foyer on Monday, 6th of November.

From 6th-10th of November, as part of "Building Unity Through Diversity Week", the Students' Union, in conjunction with Concern, Suas, the Baha'i society and the National Action Plan Against Racism, is proud to present the 1000 Families exhibition. The exhibition consists of 25 large images of families from across the globe. The images are sourced from a book entitled "1000 Families - The Family Album of Planet Earth" which is a compilation of photographs taken by German photographer Uwe Ommer as he travelled across 130 countries meeting with families just before the millennium. In the book family members discuss their lives and their hopes and dreams for the new millennium. The main theme is- everyone has a family, regardless of who you are or where you're from: as the Baha'i quote says, "the earth is but one country, and mankind it's citizens".

- **Bowling Night** » Galway Leisure World on Wednesday, 8th of November.

- **DinCert!** » Hub/ College Bar on Friday, 10th of November.

Building Unity through Diversity Week ends with a dinner and concert in the Hub and the College Bar. Everyone's welcome, provided you bring food! Why not get together with a group of friends to prepare a dish from your region? The dinner starts at 8 p.m., with a whole range of intercultural entertainment to follow in the College Bar, from Irish dancing to choral music to salsa. Biotechnology Society

Biotech Soc secretary report for the year September 2006-May 2007

This year Biotech Soc continued in its aim to promote biotechnology and science on campus, and to provide a medium through which students of biotechnology in all four years of study can meet and interact.

September saw Biotech Soc's AGM and the election of the now outgoing committee. The committee aimed to organise social events such as parties, club nights, table quizzes and race nights. Several committee meetings were held throughout the year. A Biotech Soc night out was held in October which saw a good turnout from several of the biotech classes. This year the society provided a service through which Biotech hoodies could be ordered by biotech students of all years.

The committee hopes that the society's membership will grow in the coming years through continued effort to promote interaction between biotech students in all years of study and promotion of biotechnology on campus.

Business Society

Our society attempts to get more students thinking about business and opening their mind to new ideas. The business society's goal is to help any student that wants to get involved in business in any form in the future and provide a structure for building contacts. Its objective is to educate those of us that have an interest in any form of commerce and want to hear from people outside the lecture hall, people that have had experience in the workplace. We also feel that it is a very important social society and we are proud to say that if societies are there to bring people of similar minds together, the business society accomplishes this.

Chess Society

The Chess society of NUIG is designed to improve its member's chess understanding and exposure. We provide this by means of chess lectures, weekly meeting at Smokey's Joe, plethora of tournaments and competitions, simultaneous games by masters and many others. It may sound boring but we organise this in a way that it is enjoyable, informal and friendly, and most importantly memorable to our members.

By far, we have many promising players that have won many tournaments and competition either in Ireland or abroad. Notably, European Chess Cup qualifier, 4th in the intervarsity championship, 3 times Galway Blitz Champion, 2nd in Galway Winter League, 2nd in Cork Chess Congress, 2nd in Galway Chess Congress and grading prizes winner in many other tournaments. Having said that, we have 3 players that are in the Irish top 100 and 10 players in the Irish top 500.

We also have a sense of togetherness in our society. You can find a freaky nerdy student doing their PHD(permanent head damage) to a punk rock student playing chess at Smokey's during our weekly meeting. Annually, we have a society trip, yes a society trip but not to a serious place that is related to chess but to any place that can soothe our mind and enhance our brain activity for the sake of our mental development and health.

Interestingly, we do not limit our society to a one dimensional society, yet we provide our members the opportunity to explore chess in different angles like in music during the musical week of NUIG, human chess whereby real humans become the chess pieces and acting some dramas following the immortal game of Tal, fundraising during rag week and last but not least organising chess competitions in the college or local schools.

This year we also completely redesigned our website which gives it a contemporary, accessible feel and offers methods of discussing and improving your "game". www.chess.nuig.ie

We had a lecture by the world top junior, Grandmaster Gawain Jones who is at the moment 18 years old.

We also sold chess hoodies for the first time and it turned out they would be sold out only in the first three months.

Moreover, the chess society has donated 70 new chess books worth €1000 in the NUIG main library and 4 chess sets to charity.

There is no better way to improve our brain than to use and practise it. You can do it in the Chess Society!!!

Choral Society

This year the Choral Society has gone through a tremendous amount of growth and changes by way of musical expression and also by way of committee and directional changes.

At Christmas, we said goodbye to our conductor of four years Peter Mannion who led the choir to national and international recognition in Choral competitions. He also secured the choir a place in the Choral Olympics in Austria which we hope to compete in next year. Peter has gone on to pursue his music interests elsewhere and we wish him all the best.

We welcomed in our new conductor Thomas Cryan in January. Chosen from within the choir, Thomas' wide-ranging musical background made him an obvious choice to continue on the Choral society's success. With his confident approach and attention to detail he has produced a new quality and style to the choir.

In November we competed in the Sligo International Choral festival and chaperoned a visiting choir, the Princeton Katzenjammers, over the weekend. On the Friday we competed in the folk section singing a traditional song 'Siuil a Ruin' and 'Come Shepherd's Come'. The Girl's choir conducted and run by Clio Minogue and Fiona Kenny sang in the 'female voices' section of the competition on Saturday afternoon singing 'Cailis De' composed by Padhraic Mac Ciolla Cheara and Mr Sandman. They placed 3rd in their section and were delighted with their result. The main choir competed in the international competition on Saturday evening singing three pieces 'Sleep' by Eric Whitacre, 'Komm Susser Todd' by Bach and 'Chant to bring back the wolf' one of the Magic Songs written by R. Murray Schafer. The Magic Song 'Chant to bring back the wolf' performance went down a storm with the audience members and judges, being as highly unusual as it was.

At the very end of November we had our annual winter concert in St Nicholas' Church. This was to be our final recital under Peter's direction and proved an emotive moment for all involved. We raised the roof in that church and created something quite magical and unique for our friends and family alike.

That same day the choir was recorded for broadcast on Lyric Fm which gained us some experience in media related projects and helped advertise the choir.

Our first performance of the New Year was in February when we performed for Múscailt under the direction of Thomas Cryan. We sang a programme of contrasting pieces including 'Down by the Sally gardens', 'Hallelujah' and 'La La La je ne l'ose dire' and it was a thoroughly enjoyed event by those in attendance.

In March we visited the great city of Limerick where we competed in the Limerick Festival of Choral Music in the Sacred Music category. We sang 'A Clare benediction' by John Rutter and 'Hallelujah' by Bill Derksen. We were placed 3rd in the competition and were delighted by our performance. The judge's comments were that we had a delightful contrast between our two pieces and that we had a well blended sound and fantastic energy.

To end this fantastic year the choir are performing a spring concert in St. Nicholas' church for our family and friends and members of the general public.

New developments have included the use of line CD's and pre-recorded versions of our songs helping members learn our music faster and easier and making our practises run more smoothly. The occasional trip to the college bar also creates a casual atmosphere and fosters friendships among members. Communicating with the choir via email and text messages proved very successful this year. The makeover of the Choral Society's website by one of our committee members; Maggie Lalor, was a success and gave us scope to develop a fresh, new image for the choir. We also participated in a Saturday workshop with leading international instructor Greg Beardsell who gave us some valuable techniques as regards projection and breathing in preparation for our competitions later on in the year.

2007 also provided an opportunity for students to become part of the first auditioned choir in NUI Galway i.e. Cantoiri Colaiste na Gaillimhe organised and directed by Ms. Clio Minogue.

In March, the Chamber choir performed on the TG4 programme Ardán singing two pieces 'Geantraí' by Michael McGlynn and 'Ar n-Athair' a piece commissioned for the choir by David Hamilton.

In April the Chamber choir will journey to Letterkenny to compete in the Pan Celtic Festival - Oireachtas Na Gael where they will sing 'Geantraí' by Michael McGlynn and 'Ar n-Athair' by David Hamilton.

In May the Chamber Choir will travel to London to join in the Really Big Chorus Competition; The Scratch® Brahms Requiem where we will be participating in The Scratch® Choral Challenge in the Royal Albert Hall. They will perform Brahms requiem as well as 3 pieces of their own choosing - Ravel's 'Nicolette', Michael McGlynn's 'Geantraí' and 'Se hvor Klarer det nu opp på jorden' by Vestoppland Kammerkor.

The Choral Society has gone from strength to strength this year due to the hard work and dedication of all its members and we are excited to see what next year has to offer us; more competitions and the choral Olympics.

Computer Society

The society have had numerous events throughout the year, the most notable being the "International Talk Like A Pirate Day" which was held the day before societies day at the start of the college year. Society members dressed up in pirate garb shouting "Yarr", "Walk the plank", "Shiver me timbers" as well as other words from the pirate lexicon around campus - startling a few people - selling eye patches, and fighting Cystic Fibrosis the only way pirates know how: by shouting at it with colourful words steeped in metaphor and simile. The society raised €800 for Cystic Fibrosis Ireland from 'Talk Like A Pirate Day'. During the summer we ran a very successful Schools Outreach program, which was welcomed by the schools who attended and we hope to have another one during the summer. We showed mainly secondary school students exciting things one can do with a computer such as; networking - with practical simulations on the computer and in real life (one person pretended to be a data packet who had to communicate between two people pretending to be computers, and one student pretending to be a server having to deal with numerous HTTP requests), creating and editing videos on a Mac - with thanks to Galmac, flash, game design, robotics, video conferencing, and computer hardware.

The Youth Outreach day was thoroughly enjoyed by everyone involved, both the schools and the volunteers. During the year, we ran numerous gaming events. Most notably the "Wii Gaming" event which took place upstairs in the college bar. The Wii gaming event was very well received as the console had just started being sold in Ireland, so people got to see how it looked and how much fun it is to play - especially the boxing! As like most years, we ran a workshop on basic Linux using Putty on Riviera (our new server which replaced Frink) which was held in the Arts Faculty Suite in the Physics Dept. We showed users how to check emails with Mutt, write documents using Vi and Nano, checking who is on the server using who, 'w' and finger, uploading files to their own personal CompSoc web space (using WinSCP), screen, back grounding and foregrounding jobs, Talk, Hey, as well as IRC using IRSSI. New users as well as veterans to Linux found the workshop very informative and well presented. We also ran numerous LAN gaming events in the Hub, primarily playing Counter Strike, which was also well received by all who attended and this also provided a relaxed, fun environment for people to ask questions about the society and for feedback from the committee. We hope to continue with more LAN's in the coming college year.

Cumann de Barra

Cumann de Barra, the university Fianna Fáil Cumann, had an unprecedented year this year. The year started with a record number of sign ups on Socs Day and this enthusiasm continued through the year within our weekly meetings and through our other events like the Drive Safety Campaign run on campus for which Cumann de Barra picked up the AIB Event of Excellence Award. Unfortunately at the end of semester one we lost our Hon. President Cllr. Michael Leahy to illness. The Cumann also had the honour of hosting Ógra Fianna Fáil's National Youth Conference in the Ardilaun House Hotel in February. Here the Cumann achieved the feat of being the first to retain the Gobhnait O'Connell award for best Ógra unit of the year. Furthermore all candidates from the Cumann put forward for election at the conference were successful. Cumann de Barra also sent large numbers to both the party's Ard Fheiseanna which took place in the academic year showing the strength the Cumann has risen over the past number of years.

We held 23 committee meetings during the year and we have held our AGM. Our total membership stands at 10 members.

Cumann Staire (History Society)

An Cumann Staire / The History Society is one of the most well established societies on campus and enjoys consistent support from Roinn na Staire. The society welcomes speakers and aims to indoctrinate a love of history. The society annually is responsible for the smooth running of everyone's favourite dress ball; The Arts Ball. Is Cumann dhá-theangach é an Cumann Staire agus is aobheann linn gach deis chun ár dteanga álainn a chur chun cinn.

This year we continued to provide students with lectures both on and off campus; including the Ruby Room Lecture series which began two years ago in the Kings Head. This year we also began a series of talks given by history postgrads here called 'An Introduction To....' This series consisted of talks on such wide ranging and interesting topics as '9th Century Warfare' by Jena Webb to 'The Impact of Weather and Climate Change on History' by Tonaí Ó Roduibh.

The Society also travelled to Mainz in January, with Prof. Steven Ellis the head of the Department, to forge a link between our society here at NUIG and the equivalent at the University of Mainz. Fortunately, unlike last year's trip to Edinburgh, this year's trip was entirely successful and the linkage is now formally established. A few weeks later we welcomed a representative group of Mainz students on a return visit and showed them a great time including going on a trip to Connemara and to a hurling match. This was all part of the first ever International History Intervarsity to be organised here and is scheduled to become an annual event. Planning has already begun on next year's conference with representatives from Mainz, Pisa, Trento, Vienna and Uppsala expected to attend.

The Society also sent four speakers to the annual Irish History Societies Association (IHSA) conference in Belfast, where these were supported by six members of the Committee. At the IHSA we campaigned successfully to organise and hold next years IHSA here in NUIG. This is the largest conference of its kind held in any Irish university each year and promises to be a major event in next year's calendar.

And how could we forget the hugely successful Arts Ball at the Radisson SAS in Galway at which 900 students attended. Like last year, with the purchase of the ticket everybody received a booklet containing the upcoming events of the Fleadh Imboilg, which was run successfully with the Múscailt arts festival this year. The various events of the Fleadh Imboilg, headlined by the Arts Ball, managed to raise over €11,000 for various charities including VSA, Suas, Goal and the Williams Syndrome Association of Ireland. Williams Syndrome is a rare genetic disorder that was first recognised as a distinct entity in 1961. Estimated to occur in every 1 in 20,000 births it affects both males and females equally and can occur in all ethnic groups. WSAI is a small local based charity which provides education and empathetic support for those with Williams's syndrome and their families. The ball itself was a fantastic success with a pre-reception at Bar-903 and then dinner and dancing in the Radisson to the music provided by some musicians from Trad Soc who organised a céilí after the meal. Then popular local band Pyramid and a DJ entertained us into the

small hours of the following morning. The next day's entertainment was provided in the campus bar, while all those wearing Arts Ball wristbands gained free entry into Cuba* nightclub that night.

Jackie Uí Chionna presents an interesting talk on her research into the bitter 19th century legal row over who controlled the lucrative fishing rights on our own local river. Even today the remains of the privately controlled fisheries can be seen from the Bruach na Coiribe river walk. Fáilte roimh chach, soláistí ina dhiaidh.

- **The Pale and the Royal Governors** » Institiúid de Móra (formerly CSHSHC) on Wednesday, 8/11/2006.

The Pale nobility and the chief governors of Ireland, c.1500-1536.

(sa seomra seimineáir)

This talk by Gerald Power, from his PhD research, will provide an insightful look at the evolution of the balance of power between the mainly Old English nobility of the Pale colony and the Tudor appointed governors. This was a key period in the initiation of an English conquest of Ireland is rich with fascinating characters still remembered today. Gerard's soon to be completed thesis promises to throw new light on this contested area of Irish history.

Fáilte roimh chach agus soláistí ina dhiadh.

- **Essay Writing for a First!** » AC214 on Wednesday, 8/11/2006.

How to Write Top Scoring History Essays

It might seem like a matter of spending your life in the leabharlann in order to hope for a good mark on your history essays, but it's not as hard as that. Like many other thing the chances of writing a good essay are as much about how you approach and structure it as how much you read up on the topic. So ease the pain and break out the academic lubricant of listening to those who have done it before. An Cumann Staire has roped together a selection of 1.1 essays and their authors to share their experience with ye. First years and visiting students will find this talk of particular interest but if you're not consistently getting top marks in your essays this will benefit no matter what year you've made it to. Beidh sibh in ann bhur gceisteanna a chur chuig na cainteoirí i ndiaidh an léacht.

- **Launch of 'Introduction' Talk Series** » AC215 on Thursday, 9/11/2006.

The launch of An Cumann Staire's new series of talks

Tá muid ag tosnú sraith nua de léachtaí i mbliana, saghas léachtanna nach raibh muid á dheanamh go dtí anois. In áit a bheith dírithe ar mhion-ábhar amháin, mar is gnách, oibríonn chuile léacht ar an mbunchloch gur 'tus maith leath na hoibre'. Ag deireadh gach léacht beidh deis againn an ábhar a phlé agus comhairle a fháil air. Díreach i ndiaidh an seoladh beidh an chéad léacht den sraith ar siúil sa seomra chéanna.

This year we are starting a new series of history talks, a series based on introducing interesting topics. Rather than a talk focusing on a very specific subject these will overview a larger theme. Following each talk there will be an open discussion with the speaker.

- **Get Introduced to 9th Century Warfare** » AC215 on Thursday, 9/11/2006.

Introduction to the History of... 9th Century Warfare

Jena Webb gives a snappy introduction to the bloody world of 9th century European warfare. Think Lochlannaigh (those horny northern men) pillaging our monastic cities, think axes, think sieges! For those with even a passing interest in Mediaeval warfare and society this will be a great chance to be tour guided safely through the topic.

Soláistí ina ndiaidh.

- **Manic Ceili** » College Bar on Tuesday, 14/11/2006.

- **Introducing 20th Century Ireland** » AC215 on Thursday, 16/11/2006.

A huge topic as we all know but one with many a good story. Tomás Finn helps bring us on a tour of the current state of historical work on our most recent century, pointing out the key elements and many an unknown aspect of the lesser known events that brought us to where we are now.

- **The creation of New Spain in the C16** » Institiúid de Móra (formerly CSHSHC) on Wednesday, 22/11/2006.

The 'creation' of New Spain in the first half of the 16th century: cartography and representation.

The Spanish conquest of the Americas gave birth to New Spain on the rubble of the Aztec empire. How was this new land of opportunity, for the colonisers, depicted and given a mental conceptualisation? Edward Collins will give an illuminating talk on this vast project in the seminar room on the Institute with plenty of contemporary visual aids to keep the eyes and ears happy.

Fáilte roimh chach agus soláistí ina dhiadh.

- **Sugar, Rum and Slaves** » AC215 on Thursday, 23/11/2006.

Introduction to the History of... the Caribbean

Not sponsored by any international drinks company, boo hoo, but will feature a lot of talk of rum! This sea of islands was the destination of a lot of slaves, 1000s from this part of the world included, and the main source of

sugar until recent times. Also famous for piracy, island thieving and loads of nasty scoundrels we can look forward to a laid back talk on the sugar boom year's way down south. Caint agus soláistí ina ndiaidh.

- **Cóisir na Nollag - Xmas Party** » The Skeff, An Fhaiche Mhór on Thursday, 23/11/2006.
- **Blame it on the Weather** » AC215 on Thursday, 30/11/2006.

Introduction to... History and Climate

Is the role of the weather over played in the study of history whenever a scapegoat for a disaster is needed? Or is it ignored in the hope that no one will notice? Tonaí Ó Roduibh will bring us on an investigative journey through 'Little Ice Ages', plagues, Armadas and economic crisis. Like all the Introduction to talks those attending will leave with a better set of questions than they had at the start! Soláistí ina ndiaidh.

(This talk has a companion talk on the history of climate change to be presented later in the series by one of our geography researchers.)

- **The history of Eastern Europe** » Institiúid de Móra (formerly CSHSHC) on Wednesday, 6/12/2006.

Researching the history of Eastern Europe: challenges and opportunities

Visiting lecturer Dr. Attila Barany, from the University of Debrecen in Hungary, will give us the rare opportunity to view how history research is carried out far from our shores. With our growing contact with the lands and peoples to the east of Germany it is vital that we learn more of their history if any kind of mutual understanding is to be achieved. This talk would be of particular interest to those contemplating carrying out further study abroad or with an interest in the new entrants of the EU.

Fáilte roimh chuide dhuine agus soláistí ina dhiaidh sa seomra seimineáir.

- **Introductory Crusading** » AC215 on Thursday, 7/12/2006.

Introduction to the History of... the Crusades

We all know something of the great crusades organised by the kingdoms of Western Europe during the Middle Ages, but how many of us hold more than vague images of such an important sequence of events. The Crusades shaped Europe internally and perceptually and still hold a strong place in the minds of many modern religious fanatics. Forget Indiana Jones, secret codes and Middle Eastern zealots while Tony Fletcher gives us the real story. Caint agus soláistí ina dhiaidh.

- **Turas go Mainz** » Mainz, An Ghearmáin on Wednesday, 17/1/2007.

Cathair na Gaillimhe -> Mainz

Anuraidh, Dún Eideann, i mbliana, Mainz.. nach deas é an saol atá againne!

So pack the málaí and join us on our trip east to the land of the German tribes, and the Romans for a while as well - they got around didn't they!

Why Mainz I hear ye say.. well because our respective departments have a working agreement for cooperation since 2005/2006 and because this part of the mainland of Europe offers much to see from ancient times to the modern period. With an active and well organised representative body for students of history the university of Mainz will offer us a look at how history students are taught, and how they organise themselves. We also hope to explore the possibilities of increased student exchange at under and post grad levels. For anyone thinking of study/research abroad this trip offers a golden opportunity to see a foreign system in action.

There is also the longer term ambition to build a sort of IHSA style grouping of international third level institutions... agus ár n-Ollscoil féin mar chroí lár ann ar ndoigh. This trip will help us examine the possibilities of such a scheme.

But it's not all academic of course, there will be much sight-seeing, visits to surrounding cities, shopping and demonstrating to the unsuspecting locals what the word 'craic' entails!

Má táthar ag lorg níos mó eolas faoin turas seo chur r-phost chugainn.

We'd ask everyone lucky enough to get into the bar this day to contribute 2euro to the Fleadh Imboilg charity fundraising. It's not a lot individually but taken together will make a big difference to the charities. Buckets will be at the door manned by volunteers from VSA, Goal and Suas.

- **International History Intervarsity** » Gaillimh on Tuesday, 27/2/2007.

First Annual International History Intervarsity

This year sees the launch of a new international history student's conference right here in Ollscoil na hÉireann, Gaillimh. Along with ourselves there will be students from the universities of Mainz (An Ghearmáin) and Trento (An Iodáil) in attendance. Most of the focus this year will be on developing a framework on which to expand the grouping as more universities are invited to join this new initiative of the Cumann Staire. In the rapidly evolving third, and fourth, level environment it is vital that our university not alone meets new standards but also leads the way through innovation at both student and institutional level.

The visiting students will be shown both city and county, as well as getting an in-depth guide to student life and facilities here on campus. The Roinn na Staire have generously agreed to host an official reception on Tuesday evening to celebrate the official launch of the new intervarsity. Wednesday will be taken-up with workshops and meetings in the beautiful setting of Árainn while Thursday and Friday have time set aside for small group work, cultural events and sightseeing.

Anyone interested in helping out should contact the Reachtaire of the Cumann Staire, Tonaí Ó Roduibh, via our normal email.

The IHSA annual shindig is all about history and history students, with every university sending a group to present papers. We will be there, as with every other year, for both the academic and social sides of this great get-together. So come along to give a paper, listen to papers or simply to mix and mingle with the unfortunates in other Irish universities. Béal Feirste is a great city and QUB will pull out all the stops to help us have a good time. Other Information

We held 14 committee meetings during the year and we have held our AGM. Our total membership stands at 657 members.

Dance Society

DanSoc works together with students of NUIG to provide members with unique styles of dance. We organise many dance classes at suitable hours during the week, all levels of dance are catered for and any student who wishes to teach a dance class is given the opportunity to do so with help from the DanSoc team. We perform several shows throughout the academic year which allows members to perform to large audiences and further their dance abilities. We give every member the chance to experience the performance aspect of dance as well as the competitive aspect by taking part in the dance intervarsity! Dance is a form of exercise as well as a way of life for many people and with the enjoyment of dance being a common factor for members of DanSoc bonds are made and dancing as a team creates friendships and improves members' skills overall.

We rocked every party we have played at, all the Balls in the Galway Bay or Salthill Hotel, getting people dancing on the catwalk after the Radisson Fashion show, raising the roof in the Junction, raising the temperature aboard the Corrib Princess, and starting such a break dancing sensation in the Aras na MacLeinn foyer on Open Day we had to be shut down for safety reasons!

Drama Society

This year DramSoc produced twenty-four plays of varying length. We had a dedicated committee, who all committed to their respective tasks and we attracted many new members, some of whom will make up next year's committee. We ran events for Rag Week (a Mock Wedding) and Múscailt (the One Act Play Series) as well as raising money for charity during the Halloween party. DramSoc also provided a weekly improv night called "Staged and Confused", which encouraged consistent participation in the society. As well as providing entertaining events, DramSoc ran a lighting workshop to train new members in the art of lighting a show. These new lighting people were then given a chance to practice these new skills in lighting DramSoc productions. One of DramSoc's aims this year was to enable members to try new things and experiment with theatre. This aim was certainly fulfilled as fifteen people directed their first show this year, three produced their first show and many members tried their hands at acting. It has been a fruitful year for DramSoc, we worked hard and we had even more fun.

Ecology Society

The Ecology Society is a group of people organising, educating and taking action on both global and local environmental and social justice issues.

For 2006-2007 there was a focus on the community struggle in Rossport where the local people are under siege since October 2006, with more than 100 Gardaí posted there to physically prevent any disruption to Shell's work of building an upstream gas refinery in the area. The area is very remote. It is wild and beautiful and a designated area of special scenic importance as well as having special ecological protection. Environmental and community activists live at the Rossport solidarity camp on Glengad beach where anyone is welcome to stay. Members raised awareness in Galway, organised buses to Rossport, and stayed at the camp. This campaign is one that embodies both the environmental and democratic crisis that is escalating with the global drive for privatisation and exploitation of resources at the expense of rural communities and for the gain of Trans-National Corporations.

Other focuses this year were on our anti-war activities. A trip to Shannon airport for Halloween facilitated networking between students and social justice groups nationwide. The creative interference alliance gave us a chance to express our opposition to the use of Shannon in a fun and dramatic way, with skeleton and reaper costumes on the day. The presentation in January by Caoimhe Butterly was educational for all as we heard about her experience as an activist working in communities affected by the war in the Lebanon.

The Zapatista Film festival, the book launch of Clandestine's by Romor Ryan living in a Zapatista Community in Chiapas, Mexico, inspired many students who were able to gain insight into social movements of Latin America.

The year was topped off with visiting speakers from Philadelphia, USA in April. The four speakers drew a huge audience of more than 200 hundred people. Our appreciation and admiration for the Free Mumia Abu Jamal campaigners grew as they brought environmental issues, deprivation, resistance and oppression together in most accessible and powerful language. Their passion, critical thinking and expression inspired and motivated, giving us a new slogan 'On the Move'. People taking hold of their own destinies is an integral part of EcoSoc's activity this year, and the need for recognition that the environmental crisis is also a democratic one.

Film Society

The committee of the Film Society this year has, through hard work and dedication, brought the society from being almost unnoticed in its events to being a major cultural contributor in the University. This year we screened up to three films per week and held up to four events a week, compared to one weekly event last year. With that increase in activities came an unparalleled increase in responsibilities for the team, but throughout the year we held our audience's attention and built a strongly established profile on campus through our regular film presentations, and our charity-fundraising table quizzes and films. In the space of one year we have become one of the biggest and most contributing societies in NUIG.

We have had a very eventful year. We have made or put four films into production and we also hope to be making a documentary over the summer. This year we designed our first hoodies and went on our first foreign trip to the Berlin Film Festival in February.

We use our three weekly films as a platform for entertaining, educating and enlightening the students of NUIG while also delivering a pure cinematic experience with prize give-aways and raffles. We have also used two of our charity films as a way to raise awareness and money for AIDS and another as a podium for raising awareness with the Mayor of Galway giving a talk on Global warming before presenting Al Gore's 'An Inconvenient Truth'. During our screenings we didn't just show films as, for example, we covered the O'Flaherty theatre under a blanket of fog and used the OHP's to beam an eerie green light into the cloud. This year with the NUIG Student Cinema we pushed cinema to the limits and provided much more than the average commercial cinema and throughout the year brought in 5000 people to our films!

Neil Jordan directed this adaptation of Patrick McCabe's novel about a boy's struggles with violence and mental illness. Francie Brady (Eamonn Owens) is a young boy growing up in Dublin in the early 1960s, where his life is dominated by his active imagination and his best friend Joe (Alan Boyle). But beneath this benign surface lurks a troubled soul; his father (Stephen Rea) is an embittered alcoholic, his mother (Aisling O'Sullivan) is emotionally unstable and periodically ends up in the local mental hospital (or as she calls it, "the garage," because it's where they take you when you break down), and their next-door neighbour, Mrs. Nugent (Fiona Shaw) often rants that the Brady's are "pigs" not fit to live with. For all their troubles, Francie fiercely loves his parents, and he can't abide Mrs. Nugent's insults. But his playful childhood pranks begin to advance into more destructive and menacing behaviour, which leads him to his own stay in "the garage." Branded a lunatic by the community and shorn of his only close friendship when Joe takes up with Mrs. Nugent's son, Francie is near the point of collapse

when his father dies while his mother is still in the hospital. With nowhere to go, Francie takes an especially awful job as a butcher's assistant, and his overactive imagination goes into overdrive, flooding his mind with images of alien takeover, atomic apocalypse, and the Virgin Mary (Sinead O'Connor) that lead him further down the path toward shocking acts of violence

These segments are intertwined with stories from Gore's past including his highly controversial 'loss' to George W. Bush in the 2000 American presidential election. The facts and statistics in the film will shock you and may even spur you on to do your part to combat global warming!! This is one film I highly recommend and even you are sceptical about the whole idea of global warming and the threat it poses, go along and prepare to believe!! -----Broaden your Horizons With FilmSoc's Arthouse Tuesday-----

- **Happiness** » O' Flaherty on Wednesday, 14th of March.

Happiness revolves around the lives of three Jordan sisters. Trish (Cynthia Stevenson), the oldest, is apparently living the American dream: she has a beautiful house, a loving husband, and three children. Helen (Lara Flynn Boyle), a successful author, leads a life of wealth and glamour. Joy (Jane Adams), on the other hand, is lonely and alone, and the only men she attracts turn out to be losers, cheats, and degenerates.

Solondz's overriding message is that true happiness is a myth. There is no such thing. One of the great strengths of Happiness is that we experience empathy for the kind of people we would ordinarily feel uncomfortable about identifying with on any level.

controversial view that sometimes the end justifies the means when seeking to save the lives of others and raise serious issues. Film trailer www.thethinkshop.co.uk/mask/behindthemask

FAD Soc

Food and Drinks Society aims to broaden students' experience of food and drinks. We organized various tastings of products from around the world, including tastings in association with professionals in the field such as Sheridan's Wine and Cheesemongers, as well as encouraging students to cook for each other. We managed to put together a strong and enthusiastic committee for next year when, we hope with full status, our society can grow.

Food and Drinks Soc Events

This year the society held a total of 7 events.

- **EGM** » IT Building on Monday, 13th of November.
- **Christmas Party** » The Cellar Bar on Friday, 15th of December.

In association with Lit & Deb and Cumann de Barra.

- **Sheridan's Cheese and Wine Tasting** » Sheridan's-on-the-Docks on Wednesday, 24th of January.

An evening of wine and cheese tasting with information from a Sheridan's representative. Eur5 per person covers the costs of the lecture. Buy your tickets well in advance from the Socs Box or FADSoc stand on Socs Day 2.

- **Shindig in the Síbín** » College Bar on Tuesday, 6th of February.

FADSoc are teaming up with the International Student Society, as part of the Múscailt Fleadh to bring you Shindig in the Síbín. This is your chance to show our visiting students some of mammy's homely Irish cooking. Bring along a traditional Irish dish and get a taste of everyone else's. Your dish (to feed 3-4) is your entry fee. The grub is followed by a céilí supplied by Tradsoc. See ya there!

- **Healthy Eating Bring-a-dish** » Dangan on Friday, 16th of March.

Because it's being held in a committee member's house, places for this bring-a-dish event are limited so email fadsoc@socs.nuigalway.ie with your name and what healthy dish you plan to cook (to serve 3-4 people) and we'll tell you where to arrive. Following on from the success of our last bring-a-dish event, this one promises to be just as much fun, in a more intimate venue. Hope to see you there.

- **Mexican Bring-a-Dish** » Dangan on Friday, 23rd of March.

We're having a Mexican themed night! Same format as the last time. The first 10 People to email fadsoc@socs.nuigalway.ie with their name and what dish they want to bring gets the coveted address of where the event is on. Bring the dish to feed 2-3 people and we'll all get a taste of what the others have brought. It was a big hit last time and promises to be even better. Places are limited!

- **End of Year Party and AGM** » The Cottage Pub, Salthill on Friday, 30th of March.

Food and Drinks Soc are celebrating their successful first year with Galway's finest finger food for free in The Cottage Bar. We'll also be throwing around ideas for next year and electing a new committee. Come along.

French Society

The French Society, as always, provided students this year with events aimed at offering a fun and enjoyable experience while improving students' French and giving them a greater appreciation of French culture. The society invited all students to come and watch a French film on a weekly basis, (every Tuesday), in one of the theatres in the Arts Millennium Building. This event proved to have a reasonable demand throughout the year. In addition, every Wednesday night in DeBurgo's the society had its traditional "Soirée Francaise" which offered students the opportunity to come and meet French and Irish people alike. Students were given the opportunity to speak both French and English with native French speakers. This event proved quite popular also. We also teamed up with Rotaract Society for 'The Socs in the City' Fashion Show and a team building weekend in Killary.

GiGSoc (Gay in Galway)

GiGSoc is NUI Galway's Lesbian, Gay, Bisexual and Transgender Society. It exists to provide a safe space for LGBT students to meet, have fun, and support one another. Getting involved with GiGSoc can be an important first step for students who are thinking about coming out.

We also try to highlight awareness of LGBT issues on campus. GiGSoc is also there to help students who are experiencing homophobia either in a social or academic context. The Students' Union works with us to make sure these issues are highlighted and dealt with. The society is always open to new ideas about how we can make life easier for LGBT students and increase awareness and tolerance in the wider student body.

GiGSoc also aims to reduce homophobia and discrimination towards the LGBT community by integration, opening the society to people of the 'straight' community, encouraging them to come along and by running events in co-operation with other University societies

The main emphasis in GiGSoc is on matters social. We meet every Tuesday and usually adjourn to the pub after. We show films, organize a variety of social events, and travel to LGB events such as USI's Pink Training weekend, and

the USI LGB standing conference. In addition to our Tuesday meetings, we also offer an Icebreaker service to potential new members.

Goal Society

Throughout the year we helped to raise funds for GOAL projects abroad and helped to raise awareness of those projects on campus. The society took a special interest in the situation in Darfur putting together a radio show to raise awareness highlighting the situation. This year was a very successful one with the society handing over €3,800 to GOAL in March.

Goal Soc Events

This year the society held a total of 3 events.

- **Sponsored Men's Leg Wax** » College Bar on Wednesday, 18th of October.

Due to the success of the GOAL Leg Wax last year, we're doing it again! Come along and enjoy the spectacle, and maybe even give it a try- if you're brave enough!

- **Whispers in the Dark** » An Taibhdearc on Wednesday, 1st of November.

- **Kick 4 Life Talk** » Tyndall Theatre on Tuesday, 13th of March.

Kick4life is a registered charity that uses football as a means of raising funds and awareness of global issues. Last year co-founders of K4L Steve and Pete Fleming attempted a unique challenge by kicking a football for 250 miles across Malawi to raise money for children orphaned by Aids. Kicking along dirt tracks and roads in

temperatures exceeding 30 degrees centigrade, they completed the challenge in nine days, covering more than a marathon a day. Following this remarkable achievement they set up the charity Kick4Life, which has since been involved in many more football related projects. President of Galway United Football Club and TD Michael D. Higgins will chair the talk, and a reception will follow. All are welcome.

Horse Racing Society

Our main event each year is our Annual Cheltenham Preview Night. This year, as ever, we assembled a top class panel of Racing experts from home and abroad who gave their time free of charge to this worthy cause. This panel comprised of top Irish jockey Andrew McNamara, 8 time British Champion Jockey Peter Scudamore, ex Racing Post editor and regular 'Last Word' contributor Alan Byrne, Champion Hurdle winning trainer Michael Cunningham, Damien McElroy of The Irish Independent, and legendary punter, owner and trainer (and founder of DAFA) Barney Curley. A crowd in excess of 500 attended in the Salthill Hotel on Monday March 6th. This year's night raised 22,000 euros, all going to DAFA. We attract sponsorship from all over the country, with Mulholland Bookmakers being our largest contributors.

In the past 5 years we have raised over €100,000 for Direct Aid for Africa, a charity with strong links to the racing community. Unlike other charities, every penny you give to DAFA goes straight towards helping those in Africa (mainly Zambia). Learn more about DAFA at www.dafa.co.uk. This year we won best charity event at the Society Awards 07

Horse Racing Society Events

This year the society held a total of 1 event.

- **Cheltenham Preview Night** » Salthill Hotel on Monday, 5th of March.

The NUI Galway Horse Racing Society has once again teamed up with Direct Aid For Africa (DAFA) and John Mulholland to stage the 6th Annual Cheltenham Preview. Entry on the door is €15 which includes a €10 Free Bet. Over the past 5 years the NUI Galway Horse Racing Society has raised over €100,000 for DAFA and this year is expected to be our biggest yet. Our panel is comprised of numerous experts including Alan Byrne, former Racing Post Editor and Barney Curley, legendary punter, trainer and the founder of DAFA. The night will also feature phone-ins with leading racing figures along with video footage and detailed analysis of the main Cheltenham contenders. The unique feature of our preview night is that every single cent received on the door and through raffle sales go straight to Direct Aid For Africa and the costs are borne by the organisers. The money is spent on trying to improve the lives of people in the Third World through a range of projects focusing on health care, education and self-help. Operating predominantly in Zambia DAFA has been involved in funding health centres to treat those suffering from AIDS as well as supporting hospices to provide care for those dying of the disease. It has also promoted schemes providing home-based care to AIDS victims and others.

ISS International Students Society

The International Students Society is dedicated to bringing the diverse nationalities of students studying at NUI Galway closer together. We offer students, both Irish and visiting, the opportunity to meet new friends in the most multicultural setting possible. Students and Staff from different countries are encouraged to get together and to prepare a dish from their country/region/culture, and bring it along on Friday the 10th to the HUB from 7 pm onwards. The dishes will be laid out on a table in buffet style, so that you share what you have prepared with fellow students - Irish and those from further a field! You get to taste flavours from all over the world, prepared by fellow students. Students may also decorate their dish with flags, or indeed make a small note to name and explain the dish. Entry is FREE to all students, but you must bring a dish with you. There will be a wine bar and a soft drinks bar available in the Hub. After, we move into the College bar, where Irish dancing, Salsa, Tango, a choir and Malaysian dancing will be amongst the entertainment provided free of charge. Italian Society

The Italian Society was formed to spread an understanding and appreciation of Italian Culture in NUI Galway. Galway has a thriving and vibrant Italian community as does the college with many students arriving annually to study on the Erasmus/Socrates programmes. This year we hope to have achieved a greater awareness of the society on campus and to have made people more aware of the vast cultural contribution Italy and the Italian people have given to Galway, Ireland and beyond. We did this by creating events featuring large and small elements of Italian culture; our table quiz had Italian rounds, our coffee morning featured Cappuccino and traditional Italian Christmas cake and we added a twist to an ordinary night out by ordering pizzas to give a more 'aperitivi' and casual take on an evening, just like Italians themselves.

Our two major events, however, allowed us to really spread our love of Italy to the students of Galway, the trip to Bergamo and Venice and the Carnevale Ball in the Radisson. By undertaking such major events we hoped to create a place in the university for the Italian language and people.

This year we won Best Improved Society at the NUI Galway Awards and went on to represent the University at BICS.

Karting Society

The first semester was big for Karting Soc. Just before Christmas, Karting Soc became an official society. We started the year off with the Grand Prix Party in the Living Room. The Living Room kindly offered us their top floor to watch the Brazilian Grand Prix. The conclusion to the Formula One season was met with huge interest as Karting Soc packed the place with passionate Schumacher fans and the odd (very odd) Alonso supporter.

On the 20th of November Karting Soc went on a trip to Pallas Karting. 14 of our top-gun drivers took to the track to compete for NUIG's number one spot! Unfortunately torrential downpours turned our grand prix event into a scene from Mario Kart! Fastest driver on the day was Alloys Muller's.

RAG WEEK 2007 was eventful for Karting Soc as we held a party in Bar903 on the Wednesday. We had a great attendance for the event and the crowd's demand for further partying forced us to travel all the way to Cuba (all those stairs!) to finish off what was a great night.

Karting Soc Events

This year the society held a total of 4 events.

- **AGM** » The Hub on Wednesday, 11th of October.
- **Grand Prix Party** » The Living Room on Sunday, 22nd of October.

Karting Soc is hosting a Grand Prix Party in the Living Room for all you F1 fans. The Brazilian Grand Prix will be shown on the big screen on the top floor. It's the last grand prix of the 2006 season & the last grand prix of Michael Schumacher's career. Don't miss this historic occasion. Free finger food promised.

- **Trip to Pallas Karting** » Pallas Karting on Monday, 20th of November.

Karting Soc is going on its first trip this year to Pallas Karting in Tynagh. Pallas has the largest go-kart track in Europe and we're bringing 14 people down there for a half hour of exciting action.

- **RAG WEEK PARTY!!!** » Bar903, Cuba (the club, not the country) on Wednesday, 21st of February.

RAG WEEK will be an eventful one for Karting Soc as we are holding a party on Wednesday. We're hitting Bar903 followed by Cuba*. We promise a great night

Labour Youth Society

Labour Youth is the youth branch of the Labour Party NUI, Galway. As Ireland's only real left-wing alternative to the domination of corrupt and self-serving petty politics that have marked this country, we aim to try and give the students of NUI, Galway a voice in building a better Ireland. With increasing voter apathy, this society tries to show students that they can, make a real difference in Irish politics. We hold meetings and talks on Labour politics and organise events throughout the year, focussing on issues such as equality, human rights and social justice. Labour Youth also has a strong international dimension, regularly participating in European events with our sister social democratic parties in the Party of European Socialists. If you have ever felt like you wanted to change the world for the better, then Labour Youth is the political society for you.

We hold talks and guest speakers to highlight and engage in discussion on issues such as abortion, euthanasia, capital punishment and mental health and disability awareness among others. We also incorporate voluntary work to raise money for many worthy causes which deal with life related issues. Charities to date we have collected for are Aware, Enable Ireland, Life Counselling, Down Syndrome Ireland and Special Olympics among others.

We hosted weekly meeting for the society each week and also kept in contact with other LifeSoc's on other campuses. This year was a successful one for the society with high profile guest speakers such as Kathy Sinnott MEP, Martin Clynes, head of the National Centre for Biotechnology in DCU. We also had the international guest

speakers , Joseph D'Agostino from the Population Research Institute of the USA and Pat Buckley of the European Life Network.

We had our annual collection on Daisy Day for Aware on campus which was very successful. Also during Rag Week we organised charity events which were in aid of the Special Olympics, Life Counselling. A social evening was also organised in An Pucan in aid of Life counselling, earlier in the year. We hosted a visiting psychologist Gerry Hussey, who spoke on Logotherapy, based on Viktor Frankl's work. So all in all it was a very comprehensive year with the society focusing on all aspects of the pro-life cause.

Malaysian Society

The Malaysian Society, formed on the 17th of October 2005, continues its ambition to be one of the most renowned societies in the National University of Ireland, Galway. The Malaysian Society received it's recognition as an acknowledged society in September 2006 after a year of probation. Our aims that we hold strongly until now include bringing all the Malaysians together despite race, culture and religion; to become an intermediary between the Malaysian students and the Malaysian Student Department (MSD) in Dublin; and to introduce our culture to all the students in NUIG.

Earlier during the term, the Malaysian Society gladly welcomed the officers of the official sponsors of the Malaysian students in Galway, Mr Mhd Yatim Hassan (MARA Education Attaché), Mr Jamalulail Abu Bakar (JPA First Secretary) and Mr Anand Baharuddin (MSD Education Attaché). The new students were scheduled to arrive together with the officers in the afternoon, and a meeting with all of the Malaysian students in Galway was held immediately afterwards. The meeting enabled the students to ask any questions and express compliments or dissatisfaction.

In October, Malaysian Society held the Malaysian Food Fair; this was organized together with the official associate of Malaysian Society, Persatuan Pelajar Islam Malaysia Galway (PPIMG). The food was laid out in the Sports Hall Foyer during the afternoon. Vast numbers of NUIG students came along to experience the delicacies of Malaysia (at a very affordable price too!). Though the food that was displayed was definitely difficult to pronounce by the non-Malaysian students, this didn't stop them from digging in.

Also in October, the Muslims in Galway were happy to welcome Eid Mubarak, one of the most important and exciting celebrations in the calendar of Islam. This beautiful event was held in the Aula Maxima in the afternoon, and though there were no officers present, all of the Malaysian students enjoyed a fabulous meal and a great performance by the student's band. Chef Azahari was the Malaysian chef who provided the wonderful cuisine, together with Nurain who prepared the "rendang ayam" and the new students who prepared the "kuih". A full stomach can sure make a person happy.

Soon after the festivities, the Committee Members proceeded to have the Annual Grand Meeting in the Aula Maxima. Last year's committee members gave in their places and new ones were chosen by the students. For this year, the President, Deputy President and Secretary posts were still held by the same persons. Being pioneers of the society, the highest three positions would like to strengthen the society further before passing it on. Matters relating to the future of the MSNUIG were discussed and the Malaysian Society aimed to become busier with more events, more activities and more fun.

In the end of October, the Paintball Tournament was held among the students. 58 students from the Malaysian Society participated. As much as the students found the game to be a blast, most of them agree that the match was a painful one; very true for those who got hit. This, however, did not stop the students from having a very good time. All came home with smiles on their faces, in fact the pain did not frown anyone at all; thus becoming a true experience to remember indeed by the newly arrived students.

In November the Malaysian Society sent a netball team to Nottingham for the Nottingham Games 2006. Playing against teams including those from Queens Mary, Warwick and Nottingham, the Galway netball team was able to proceed to the Quarter Final, though losing to Warwick in the end. Nottingham Games 2006 was an arduous journey indeed, say the students, and a straining experience but it was worth their while and the experience was definitely enlightening. Hopefully the journey next year is going to be better and fruitful.

A soccer team was also sent to compete in the Games, comprising of the best players in Galway. Their first match brought them to meet students from Birmingham University, followed by those from Dublin Business School and a team called the Seven Kings. The Seven Kings were the combination of all the top soccer players in London. Unfortunately, the team from Galway lost in all three matches; however they regained their spirits by beating the team from Hertfordshire in the fourth and fifth match with a score of 6-0. In the end, the team from NUIG was named fourth place among the groups.

The Malaysian Society was proud to send Zaidan Zulkpli to compete in the chess section of the Nottingham Malaysian Games. The field was filled with 32 talented chess players from all over UK and Ireland. It was run on the basis of the blitz elimination system. Zaidan sailed through from the beginning of the competition beating easily his opponents all the way into the finale. However, in the final match, he made a well-known positional blunder that cost the game. He won a silver medal in the competition.

Earlier in February 2007, Malaysian Society's official associate, PPIMG, held a family day and the Annual Grand Meeting. The Malaysian Society President was intricately involved in preparing the fabulous meal for the students for their event; the committee members being kindly supportive as well. A new president was chosen for the PPIMG.

Another important event in February was the Múscailt – Bawang Putih Bawang Merah. This was a play held by the

Malaysian students, exclusively done to introduce a little tip of the iceberg of the Malaysian culture. The students only had a month to practice, there were difficulties arising in the beginning, but everything proceeded according to plan with the help of each participating member, the President of the Malaysian Society, and of course the Societies' Officer of NUIG. The play was held in the Aula Maxima, there was a great attendance by the students; the play received numerous compliments and was indeed a satisfying watch.

Following this, the Chinese New Year arrived. Celebrated internationally in nations with large populations of ethnic Chinese; the Chinese students in Galway did not want to be left out. Thus, a small get together between the students was done and a great meal was enjoyed in a local restaurant in Salthill. Chinese New Year is of course not exclusively for the Chinese and therefore the MSNUIG committee, who largely comprised of Malays, were part of the modest celebration.

In March, the President of MSNUIG, Zool Raimy Datuk Abdul Ghaffar visited Tun Daim Zainuddin in London. Tun Daim is a Malaysian businessman, politician and former Finance Minister of Malaysia. The official meeting was held together with nine other presidents of Malaysian Societies throughout the United Kingdom and the President of the United Kingdom and Eire Council, Wan Mohd Firdaus Wan Mohd Fuaad. The meeting discussed business related ideas, including working environment, global investments, corporate thinking and decision making. Tun Daim indeed portrayed a highly ambitious character and bid good luck to each president in their aim to further introduce the Malaysians overseas to worldwide career opportunities and to emphasize that dreams do come true.

Our next event was a Solat Hajat (a Sunnah Salah) and the Recital of Yassin (an important chapter in the Quran) was held in the Shantalla Community Centre. The Sunnah Salah, done to achieve extra rewards from God, was also organized to hope for the Final Year Medical students to pass with flying colours in their final exams. A salah is one of the five pillars of Islam, and in so doing; a person will receive enormous rewards from God. The Sunnah salah are those of which are optional (different from the Fard salah or the five compulsory daily prayers) and may be performed to aim for extra rewards or to request, to repent or just to emulate the practices of Prophet Muhammad.

In April 2007, the Malaysian Society sent two futsal teams to compete in the Belfast Futsal Tournament 2007. The two teams, Galway A and Galway B passed the group stage by getting the second and first place respectively. In the quarter finals, Galway A met with the First V team in which Galway A won the match by 4-0; whereas Galway B won the quarter final as well against Fitzwilliam by 4-0. In the semi finals, the Galway A team lost to the Dublin B team by 1-4 and Galway B lost to First V by 1-4. For the 3rd and 4th place match, Galway A met Galway B in which Galway B won the match through a penalty kick, ending with a score of 3-1. Galway B won the 3rd place and Galway A obtained 4th place.

As of now, the Malaysian Society has 160 members and aspires to attain a greater membership value. The Malaysian Society promises to better itself for the years to come.

Media Soc

The media society is a brand new society on campus for those with an interest in all aspects of journalism and the media, including newspapers, magazines, broadcast (TV & Radio), documentary film and photojournalism.

Mediasoc Events

This year the society held a total of 4 events.

- **Outfoxed - documentary screening** » Fottrell Theatre (Am200) on Wednesday, 4th of October.

The Media Society will begin the year with a screening of Robert Greenwalls acclaimed documentary Outfoxed - Rupert Murdochs war on Journalism. The film will be followed by a discussion of the society's plans for the year ahead.

- **Documentary Screening: The Yes Men** » IT125G on Thursday, 26th of October.

The Yes Men are pranksters with a purpose - they pose as officials and spokespeople for prominent corporations and organisations and, by setting up fake but professional looking websites, manage to get invitations to speak at major corporate conferences. Once there, they make rather startling comments about workers and consumers, only to find warm applause from the gathered executives where we might expect to see shock and anger. This 78 minute film documents some of their best pranks. A venue will be announced in the coming days. Refreshments will be served during the film.

- **Hell House - Documentary Screening** » IT250 on Wednesday, 22nd of November.

This film investigates the activities at one American 'Hell House' - which is similar to a typical haunted house, except that is run by fundamentalist Christians (usually in the US and Canada) and is elaborately equipped with actors and props to graphically depict the judgments and punishments sinners will experience in Hell, as well as the acts of "sin" themselves - abortion, homosexuality, suicide, alcohol consumption, drug use and adultery. This film focuses on the Hell House run each Halloween by the members of Trinity Church in Cedar Hill, Texas, and is a fascinating insight into the mentality and motivations of those who run it.

- **Documentary screening - Roger & Me** » Dillon Theatre on Wednesday, 14th of February.

A screening of Michael Moore's popular documentary Roger & Me, in which Moore uses black humour to illustrate the negative economic impact of General Motors CEO Roger Smith's decision to close a number of auto plants in Flint, Michigan, costing 40,000 jobs.

Medsoc also acts as an intermediary between the Dean of Medicine and the students. Any concerns students may have are brought to attention at meetings by their class reps and hopefully resolved. Medsoc also liaise with the class reps for each year in organising their class trips.

The responsibility of organising the annual medical ball which takes place in December falls to the committee members and this is our main focus from about October onwards.

Musical Society (GUMS)

This year's committee, headed by Conor Feehily, started off with great enthusiasm. The first task of the committee of 06/07 was to decide on, and get the rights to, a show which would be the biggest event of the year for the society and also the most important. After great discussions it was decided that this year's show was to be the Rodgers and Hammerstein's 'South Pacific', the show was to run from the 6th to the 10th of February in the Black Box Theatre. The musical was a great success with thanks to the producer, Delia Lowery and the strong committee of 14 members, along with the help from several loyal cast members.

Two constitutional amendments were made this year, the first at the AGM splitting the roll of producer/auditor into two separate positions. The second at the EGM giving Director and Musical Director full committee status and also creating six OCM positions, with a lock on the last three.

Meetings were held every Tuesday at 6pm in the Hub. In September after the EGM that took place on the 21st of that month the committee was fully formed and functioning. Due to the phenomenal success of last year's production and the great rapport that the cast and committee had with the Director and Musical Director it was decided to go with the winning formula of Fiona Kelly and Mairead Crushell again. This proved to be one of the factors that made 'South Pacific's success. Rehearsals for acting took place every Monday and Tuesday and choir rehearsals took place every Thursday. Our three choreographers took it in turns every Wednesday to teach the chorus their dance moves. Also two weekend workshops took place after Christmas to refresh everyone's minds of all the rehearsing that took place in semester one. It was evident from the members that signed up on Socs day that this year would be one of the best yet. After the sign up of 232 members we started advertising for auditions for the show.

As well as finding great talent to go onstage we also found a wealth of interest in the backstage running, make up, sets and people who wanted to offer their expertise to the society.

Along with discussions of the show the committee also set upon fundraising tasks. These took place in the form of a Variety Show, which took place on the 13th and 14th of November and due to the profound effort from the Sets team, under Sinead Crawford, and Production under Conor Feehily the two nights were a sell out success. Also in the first and second semester a table quiz was organised and due to the suggestion of Derek Cahalan an Open-Mic Night was held in the college bar on the 6th of March. All events were a great success and tremendous support was given by the cast and committee members. A weekend away was also organised in the shape of a theatrical Murder Mystery weekend; it was a great bonding exercise for new members. 'South Pacific' itself was described by many as the best show the society has done yet. Under the capable production of Delia Lowery along with several others the show was a resounding success. Sound was provided by Dervan Sound, and lights were overseen by Pete Ashton. The

orchestra, under Mairead Crushall, with great help from David Callaghan, added flavour and professionalism to the production. It was the first year that an orchestra was employed and musicians were plucked from the University orchestra, the Galway Youth Orchestra and from various bands throughout Galway city. Great thanks needs to be given to Derek Cahalan for organising the musicians. The set was designed and built by Sinead Crawford and her team which included not only our own society members but members from other societies, namely DramSoc, who lent a hand to construction. Costumes were headed by Andrea Lydon, our costume mistress and great help was given to her by Ailbhe Harding. The PRO side of things was run by Jennifer Keane and her team. They did vast amounts of work both on campus and off with flyering, postering and also with organising the cast to "run through" campus and through Galway city promoting and making people aware of the show. The cast itself was small as numbers dropped greatly due to the considerable commitment of four nights a week but did themselves, their Director Fiona Kelly and their Musical Director Mairead Crushall proud every night.

The show was adjudicated by AIMS on the last night of the show and the critique that came back was fair and positive, the next step for the individuals nominated is waiting to hear again from them for nominations for awards.

The musical ball was arranged for the 13th of March in the Galway Bay Hotel and a great evening was had by all. This annual event is a great way to put a close to the great work done by all society members throughout the year.

The most fantastic musical to be presented by the Galway University Musical Society thus far!! Set in the middle of world war II a U.S. Navy nurse, Ensign Nellie Forbush, falls in love with a middle-aged French plantation owner, Emile de Becque. Meanwhile the comical Luther Billis and the other restless sailors, are lamenting on the absence of women or combat to relieve their boredom, when Lieutenant Joe Cable of the U.S. Marine Corps arrives on the island to take part in a dangerous spy mission that might help turn the tide of the war against the Japanese. Bloody Mary, the native souvenir dealer, introduces the lieutenant to her daughter, Liat, on the island of Bali Ha'i and the two fall in love. The two couples prosper, and proposals of marriage are made; however, Nellie is shocked to discover that Emile has mixed-race children from an earlier relationship, and Cable refuses to marry Liat due to her race, infuriating Mary. Dejected and with nothing to lose, Emile and Cable agree to go on their dangerous mission, successfully sending reports on enemy action. 'Operation Alligator' gets underway, and the previously idle sailors, including the reluctant Luther Billis, are sent into battle... An intriguing musical comedy of war, love, and death.. one not to be missed!!

Music Society

MusicSoc is one of the most active societies in N.U.I. Galway weekly and one-off events, including Concerts, Jamming Sessions, Table Quizzes and Music Lessons. There were weekly jamming sessions in the Cellar on Wednesdays at 7.30, not to mention the Open Mic night afterwards. The Witless battle of the band competition had its grand final in the second semester during Múscailt with heats each week in the college bar.

MusicSoc Events

This year the society had a total of 19 events that took place. These events can be divided into two categories: regular and special events.

This is a chance for any and all musicians to meet up and play a few tunes together. It's a bring your own instruments event. We do have an acoustic guitar for anyone to use and some bongos etc.. and most people don't mind sharing anyways. It's also a good opportunity for people to warm up for the Open Mic Night that is on directly afterwards. There's also the facility to leave instruments in a house. Come along for some good music and good fun.

- Witless heats ran for 3 weeks in College bar, beginning on Tuesday, 16/1/2007.

This is our battle of the bands. 5 bands, 1 stage and lots of great music. Winners of the heats will progress to the final held during Múscailt. See ya there.

Palestinian Solidarity Society

The Palestinian Solidarity Society was created this year, in order to draw attention to the ongoing plight of the Palestinian people in the illegally occupied territories of Gaza and the West Bank and the Palestinian refugees spread throughout the Middle East. We attempted to counter the unbalanced and biased mainstream news coverage of the conflict. We did this by vigorously protesting the shameful invitation extended to the Israeli Ambassador to speak at an event organised by another society. A Palestine Solidarity week was held in November, Al Haq a Palestine based Human Rights group held a workshop and various films were presented by their directors. We showed numerous films throughout the year. We actively wrote to newspapers and media outlets highlighting the biased nature of their coverage. We lobbied political groups within Ireland and abroad. The esteemed Human Rights activist and politician, Michael D. Higgins spoke at one of our meetings. NUIG students and Palestinian activists Tahseen El Aayn and Khalid Quzmar gave workshops about the situation on the ground. We also actively cooperated with the branch of the Ireland Palestinian Solidarity Campaign based in the city on their various campaigns.

Philosophy Society

Philosophy meant Love of Sophia, Goddess of Wisdom, in Ancient Greece, but has accumulated different meanings since then. To study Philosophy in an institution nowadays limits you to what the academic collective recognises, but we at the Philosophy Society are here to provide a forum for everyone to come, get involved, share and learn what is 'The Best Life' for you, for us as a community. Life experience and an open mind are a must. Do you qualify? We are interested in all things philosophical, academic and otherwise. Because philosophy can be about anything we do not feel that this society is restricted to any area in particular. One way to explore ideas is to talk about them. This we do by holding informal discussions and talks on a wide variety of topics. Also we do trips (to a Zen Dojo this Autumn semester,) show philosophical films, hold table quizzes, raise money for charity, have parties and well... anything that comes into our heads. Regular informal discussions at 7.00, Monday evenings in IT205. Wednesday evenings in the Philosophy Department, one volunteer prepares a presentation of roughly half an hour on some area of his or her interest to introduce to the group. This is followed by a discussion. Our website contains topics we have covered, news updated regularly (fortnightly) of society's goings-on, photos, a forum, interesting links and lots more...

Philosophy Soc Events

This year the society had a total of 23 events that took place. These events can be divided into two categories: regular and special events.

➤ Regular Events

This year we held 2 events that ran regularly over a number of weeks. These events were as follows:

- Weekly workshop ran for 9 weeks in seminar room, philosophy department, beginning on Wednesday, 4/10/2006.

- Weekly workshop ran for 11 weeks in seminar room Philosophy dept., beginning on Wednesday, 17/1/2007.

➤ **Special Events**

This year we held 3 special events. These events were as follows:

- **Libertarianism :-)** » Philosophy Dept. on Wednesday, 25/10/2006.

Are we by nature criminals, as conservative PD government policies suggest, needing strict controls and limits, or potentially lovable beings that flower with a little gentle watering, as the Greens might say? One of our American guests will give a short talk on libertarian theories, followed by an open discussion. Phil. dept. is house next to AM car park. Everyone welcome, come and share your views.

- **Can women philosophise?** » T.B.C. on Monday, 13/11/2006.

Did you know Sophia, a woman, was the Greek goddess of Wisdom, and philosophy originally meant 'love of wisdom'? Traditionally in the west, however, the role of the clear-thinking human has been assumed by males, and women have been labelled as irrational and passionate, with minds clouded by emotion. We will challenge this idea, and examine the role of emotion in thinking, striving also to examine men's lack of emotional intelligence. No experience of philosophy recommended!

- **Weekly workshop: Prof O'Gorman** » Moore Institute on Wednesday, 28/2/2007.

Attention!!! This week's talk will take place in the Moore Institute at 7:00 PM!! A short talk in the area of the presenter's interest is followed by a discussion of the ideas and issues raised. The aim of these talks is to provide an arena for discussion of philosophical issues in an approachable way. The speakers generally assume little or no back-ground knowledge in the subject presented and try to provide the group with enough information to foster a lively discussion. This is a great chance to be introduced to new ideas and to join in an interesting conversation.

Psychological Society

The Psychological Society aims to ensure that psychology in all its forms is promoted and projected to as wide an audience as possible. The only requirement for membership is an interest in psychology (whether mild or intensely passionate!) and an eagerness to meet others and engage in a wide range of activities incorporating both the serious side of psychology, and the light-hearted social side; both equally interesting and enticing!

This year the society ran events that ranged from frequent guest speakers to society parties. Our Start-of-Term parties and Halloween party were very popular. We held a Psychology Ball (a first for our society) and organised a trip to the PSI Congress in UCD. We held two fundraising events; a students versus lecturers quiz and a soccer tournament.

We held our ball in the Galway Bay Hotel on March 22nd. Pictures from the night are now available in the Societies Gallery. As it was the first year of the event we were using it to measure students' interest, we received such positive feedback we have decided to make the Psychology Ball an annual event, though we plan to hold it earlier next year. The 'Students Vs Lecturers' quiz is also set to become a yearly event.

Our guest speakers helped the society to promote our more academic side. Over the year we hosted talks that either were relevant to students' coursework (Dr. Mike Hogan's study skills lecture had one of our highest turn-outs) or were of particular interest to individual members. Overall this year we feel that our society has lived up to what we had expected to achieve and provided our members with many enjoyable events.

The society got off to a great start in September when they held their own version of the popular TV game show 15-1 in aid of Enable Ireland. The event raised 320 Euro. Following on from the success of TV game show themed quizzes, the society ran their own version of the Weakest link in November. The event was a great success and lots of fun. In the second semester the society hosted many table quizzes in conjunction with other societies. One particularly successful quiz was with the Dram Soc. The event raised 450 Euro for Habitat for Humanity. The society went out with a bang when they hosted a "Sex Drugs and Rock n Roll" quiz during SHAG week. Radio Society

RadioSoc is a society for anyone with an interest in any aspect of radio, such as broadcasting, production, interviewing and documentary making or even just listening! We work closely with Flirt FM, the NUIG/ GMIT campus radio station, but the society and the station are separate organisations.

This year we got our own weekly slot on Flirt FM, and from the start of the year we set about giving our members an opportunity to host their own radio show. Each week, different members had to prepare and present an hour long show. This proved to be very popular with all those who availed of the opportunity. As a result of the show, some members were offered their own weekly slot on Flirt FM. Others were content to fulfil their dream of presenting their own show, even just once!

We also organised talks and training on radio related themes. At the beginning of the year we had our Media Law lecture, and we also had Galway Bay FM's news editor Bernadette Prendergast in to share her story with us.

This year we held a number of successful social events for both our members and Flirt FM volunteers. We were also proud to support the Halloween Ball which was organised by DJ Society.

RadioSoc Events

This year the society had a total of 33 events that took place. These events can be divided into two categories: regular and special events.

➤ Regular Events

This year we held 2 events that ran regularly over a number of weeks. These events were as follows:

- Radio Society Show ran for 8 weeks in Flirt FM, beginning on Monday, 9/10/2006.

The Radio Society Show is for members that have no experience. We allow people to produce, research and present their own show on Flirt Fm. If you are interested come along to our meetings, call into Flirt Fm or email us. We will also be uploading these shows onto the website soon.

- Radio Soc Show ran for 10 weeks in Flirt Fm Station, beginning on Monday, 15/1/2007.

This is a radio show for beginners. This allows volunteers to be able to talk about what interests them and to play their own music. But there will be people there to guide the show smoothly along. At the end you will get a recording of your show to bring home and listen to. You can also do this more than once! Call into Flirt Fm if you are interested in future shows.

➤ Special Events

This year we held 15 special events. These events were as follows:

- **Corrib Princess** » Salmon Weir on Wednesday, 20/9/2006.

This is being spearheaded by DJ Society. It is titled DJ Soc Floats Yer Boat. We are proud to be a part of this event. We are joined by Writer's Society and Juggling Society (Best Society 2005-6).

- **EGM & Introductory Meeting** » Rush @ The Hub, Áras na Mac Léinn on Monday, 25/9/2006.

We are having our EGM to fill some committee positions. Everyone is welcome to join, no experience necessary, just lots of enthusiasm! Also in this introductory meeting we will be getting a general consensus about what time would be suitable for an hour radio show in Flirt. So bring your timetables! See you there.

- **Marie McGonagle** » Cairns Theatre - concourse on Monday, 9/10/2006.

Marie McGonagle will be giving a lecture on Media Law regarding slander and libel. This is essential for all volunteers in Flirt Fm and anyone who wants to go on air with Radio Society in the future.

- **First night out!** » King's Head on Monday, 9/10/2006.
- **Bernadette Prendergast** » Kirwan Theatre - Concourse on Tuesday, 7/11/2006.

Bernadette Prendergast is the Head of News at Galway Bay Fm. She also teaches a class for the MA in Journalism in NUI, Galway. In this talk Ms. Prendergast will be giving us the inside track on what goes on behind the scenes of a commercial radio station. Just because Galway Bay is local does not make it small. Jobs there are coveted by all ambitious young radio presenters wanting to hit the big time. Come along if you want to be in on the trade secrets.

- **Christmas Party** » Flirt Fm Radio Station on Thursday, 23/11/2006.

Meeting for Members and Committee » HUB/Rush Aras na Mac Leinn on Thursday, 11/1/2007.

We are having a meeting to find volunteers for the Radio Soc Show. This is where people with no experience can have a half an hour or hour to play their own music and to talk about what they are interested in. There is total freedom with this show. Also past Radio Soc Show presenters should come along to get a copy of their show. I might also need volunteers for Society's Day 2 which is happening next Wednesday the 17th/01 this will just involve people sitting at a table taking names of new members. I also need lots of volunteers for Múscailt where people will be doing interviews and helping produce a show called Múscailt Beo! This will be happening around the 6th February, which will be running for 4-5 days. I will tell you more on the night.

- **Welcome Back Party** » Flirt FM Station on Wednesday, 17/1/2007.
- **Múscailt Beo Production Meeting** » Flirt Fm Office on Tuesday, 30/1/2007.

Rotaract Soc

2006-2007 was Rotaract's first year as a full society and it proved to be a successful one, with a huge sign-up rate on Socs Day in September, and a core of dedicated members that never missed an event or meeting. We ran a number of charity events, which were all popular within the society and beyond, which benefited charities from the Jaipur Limbs Fund to Cancer Care West and Console. The Galway Rotary club helped us a lot throughout the year, offering us advice, guidance and support of every kind. Despite our inexperience, we never encountered any problems with any event, due to the participation of our members. Our profile on campus was raised greatly by our fashion show, "Socs In The City," which raised approximately €8,000 for Cancer Care West, to assist in the building of their new treatment centre in UCHG, Inis Aoibhainn. We hope to build on this successful year and go on to bigger and better things in 2007-2008.

Ógra Sinn Fein Society

This was an important year for Sinn Fein nationally and the college cumann at NUIG - Cumann Darcy/Hurson played its role in this. Full quota of delegates attended the Special Ard Fheis on Policing along with many members of the cumann on visitor passes. Members of the Cumann were also active in canvassing for the 26 Counties general election in constituencies and in wards for the Northern Assembly elections, such as Galway West, Galway East, Clare, Kerry North, Waterford and South Belfast.

The cumann was also very active on the Shell to Sea campaign, taking our place on the picket line with many other groups and individuals fighting for the rights to our national resources. Tuesday meetings were a mixture of (lively!) internal debate and visiting speakers.

Slainte Society

Sláinte Soc is a relatively new society concerned with promoting health issues. We aim to provide an outlet for the students of NUI Galway to contribute to society in many ways. Many of our members are studying for a future clinical career but the society is open to anyone who has an interest in health. We aim to equip students with skills such as communication skills and teamwork that will benefit them in their clinical careers. We focus on matters such as creating awareness and fundraising.

This year was very successful and we ran many events. These included a fundraiser for Cancer Care West to help fund the construction of one of their new buildings, a Teddy Bear Hospital, a blood drive in the college and organ donation stands.

Socialist Soc

The Socialist Society is an extension of the Galway Socialist Party. The Socialist Party is the only party in Ireland which fights for the interests of working class people against privatisation and attacks on living standards. We are committed to a socialist society where all those who produce the wealth in society should be in control of how it is spent. None of the existing Dáil parties represent the interests of working class people. Building Unity through Diversity Week: The Students' Union, kindly supported by the National Action Plan against Racism, is proud to present a celebration of cultural diversity on campus from 6th-10th November. For the whole week, in conjunction with Concern, Suas, the Baha'i society and the National Action Plan against Racism, we are delighted to have the 1000 Families exhibition in the foyer of Aras na Mac Leinn. The exhibition consists of 25 large images of families from across the globe. The images are sourced from a book entitled "1000 Families – The Family Album of Planet Earth" which is a compilation of photographs taken by German photographer Uwe Ommer as he travelled across 130 countries meeting with families just before the millennium. In the book family members discuss their lives and their hopes and dreams for the new millennium. The objective of the exhibition is to act as a catalyst for discussion o a wide variety of issues from interculturalism in Ireland to development issues and reciprocity to what it means to be a family. However, the main theme is- everyone has a family, regardless of who you are or where you're from: as the popular quote says, "The earth is but one country, and mankind it's citizens". The exhibition will be launched on the 6th of November with UniTEA- a tea and coffee morning from 11 a.m. - 1p.m. The photos will be accompanied by many thought-provoking quotes on interculturalism. Please come along to show your support for this very worthy cause. The International Students Society DinCert: A collaboration between the International Students' Society, the International Students' Office, the Students' Union, and kindly supported by many other societies, Building Unity through Diversity Week ends with a dinner and concert in the Hub and the College Bar. Everyone's welcome, provided you bring food! Why not get together with a group of friends to prepare a dish from your region? The dinner starts at 8 p.m., with a whole range of intercultural entertainment to follow in the College Bar, from Irish dancing to choral music to salsa. Further details on this event available from: intstudents@socs.nuigalway.ie or su.equality@nuigalway.ie. Traditional Music Society

Trad soc 2006/07 went from strength to strength under the dynamic leadership of Auditor David Doocey. While this is the case, as with most things, he didn't do it alone. Along with a dedicated team of musicianers, dancers, singers and havers of craic, 2006/07 was a wonderful year. This year saw the College Bar finally being utilised as the fine Ceili venue we all knew it could be, as well as seeing the return of DJ Paddy spinning the pumping trad tunes on the decks for us. The Crane sessions have gone from being one lone piano accordion player in the corner to being a full-blown raucous jamboree, featuring not one, but three accordions on one occurrence. Not only that, but the incidences of sean-nós and brush dancing were much higher than in previous years. Trips away included Ennis Trad Festival, UL Campus Trad and the UCC TradFest. As in previous years, the NUIG TradSoc members put in a fine showing and left the other colleges green with envy. A number of collaborative society events during the year also featured TradSoc Musicians, with the College Bar céilí raising money for Suas, Goal and VSA. Trad soc musicianers performed during Múscailt Fleadh Imboilg at the Spraoi Bhríde, the Socs in the City fashion show, and during the Arts Ball in the Radisson.

Voluntary Services Abroad Society

Voluntary Services Abroad (VSA) has been bringing medical aid to developing world hospitals for thirty years. Through a myriad of fundraising activities, some novel and some annual, VSA raises a phenomenal sum of money, having raised over €500,000 in the last four years. As the charity is run on a purely voluntary basis, all money raised is used exclusively to purchase essential medical equipment, supplies, and drugs for hospitals in some of the most impoverished countries in the world. Fifth year medical students personally bring this aid to such hospitals, where they undertake a self-funded 2 month elective placement.

This year, a record 36 students will travel to countries such as Tanzania, Zambia, the Philippines and the disaster-stricken Kashmir region of Pakistan. This year has seen a continuation of annual fundraising events such as the Bed Push to Limerick, the Halloween Ball (which sold out over 3 days), the Swing Ball and the VSA Christmas Concert which raised a record sum of money this year. Some of our more novel activities included the organisation of black-and-white and traffic light balls, and the release of the VSA Christmas Concert DVD. As ever though, the largest proportion of our money has been raised through smaller fundraisers such as bag-packing, carol singing on Shop Street and pub collections.

A huge development this year was the construction of an award-winning official VSA website. This has served as a new and critical medium of communication between VSA and its members, and includes a facility for secure on-line donations.

This year also saw the retirement of the society's founder, Dr. Dom Colbert, from his role as mentor to VSA. His 30 years of guidance has helped to change the lives of hundreds of medical students and hundreds of thousands of people in the developing world. The 30th reunion ball that took place in the Ardilaun Hotel on St. Patrick's night served as a fitting farewell to Dr. Colbert.

VSA owes a great debt of gratitude to the people of Galway and Connaught for their continuing support and overwhelming generosity, which has changed the lives of so many for three decades.

Múscailt Fleadh Imboilg 2007 Societies Report

This year Múscailt expanded its repertoire by incorporating the Fleadh Imboilg festival which had been started the previous year by an Cumann Staire. This collaboration brought a new fun element, encouraged greater society involvement and raised significant funds for charity. The other new popular event this year was the Socs in the City Fashion Show which filled the Radisson Hotel and raised over €8000 for charity.

Preparation for Múscailt Fleadh Imboilg began in earnest in September with a record number of societies and students involved. With an early start date in February the programme, which was produced in a small informative booklet format, was ready for the first week back in January. In a new initiative to encourage student involvement a 'Get Involved' pack which included the Múscailt brochure was distributed to all student residences.

The SocsBox was a major hub for the festival with tickets on sale for many events from early January and it was also a centre of information and support throughout the festival. The brochure was also designed in house by the Societies Officer and Helen Roche one of the SocsBox staff members.

Múscailt Fleadh Imboilg took the campus by storm this year and feedback from the societies and students involved was extremely positive with a great sense of ownership of the week long event. It is now without doubt the highlight of the Societies cultural and social calendar.

Financial Analysis

The Societies have had an extremely busy year with a 62% increase on their expenditure from last year going from €561,420 to €906,714. The societies funding from the university also increased due to the new levy with an 81% increase from €141,019 in 2005-2006 to a total of €172,597 this year. The University funding accounts for 19.39% while 18.41% comes from the sale of Ball tickets and €10.04% is contributed by members themselves towards travel and accommodation on society trips.

By far the largest expenditure is charity fundraising where the societies raised an enormous €293,410 which represented 32.36% of the total expenditure and had increased from €184,274 raised in 2005-2006. In the last five years the societies have raised €906,570 for charity. While VSA raised by far the most money for their work in the developing world the other societies raised €64,603 this year which is 63% of the total amount raised for charity in 2002-2003.

Societies as an alternative to the drink culture was yet again shown as drink receptions accounted for only 3% of the total expenditure.

With additional expenditure also comes additional activity and more students involved in societies. Some of the factors which have encouraged greater involvement are the establishment of the SocsBox which is a ticket desk, information point and support station for the societies and clubs. It is unique in the third level sector and had proved an invaluable resource for the societies. The new sign up method on societies, day while not as effective as the method which was launched in 2007 still saw a marked increase in the number of students on our system. The 'What's Happening Guide' is now sent weekly to 17,000 members with a full list of society activities for the coming year. Now in addition to posters there is e-mail, on line calendar on the societies' website, society information on the LCD screens. The most effective communication development in 2006-2007 was the introduction of a fully integrated texting system for the societies and from Societies day onwards there was a noticeable increase in attendance at events and a record number of student availing of the opportunity to go on trips.

The following table gives an insight into the types of activities funded by the University; note however that 82% of activity is not funded by the University and that fundraisers are not funded. Note also that the figures below refer to the amount of times a request for a specific activity was submitted and many will refer to multiples, a case in point being video hire which was two large requests to pay for multiple films.
